EWB India Hyderabad professional chapter designed and executed a potable water plant for Krushi Home. It was funded by Pratt & Whitney and an individual contributor Mr. Ralph Noyes from USA. Mr. Paul Adams, Sr. VP, Pratt & Whitney Engineering inaugurated the potable water plant for Krushi Home. This plant has solved water problem at Krushi Home for ever. Around 125 children are housed at Krushi Home and getting drinking water was a perennial problem.

Inauguration of Solar Power Plant at Krushi Home

Mr. Allan J Brockett , VP Module Centre Engineering, Pratt & Whitney handovers certificates of appreciation to members of EWB India Hyderabad Student Chapter.

EWB India Student Chapter members

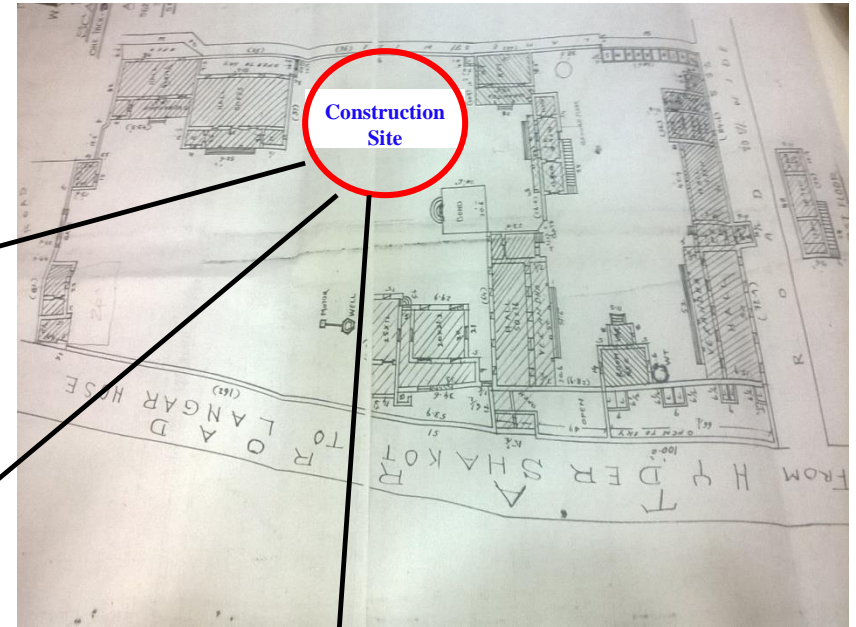

Mr. Al Brockett is planting a sapling in Krushi Home compound as part of Go Green campaign by EWB India.

The children of Krushi Home show their gratitude by wearing T-Shirts which had logos of different companies including EWB India for helping them.
